Summary

Full Stack Developer with one year of hands-on experience through a Python internship and an apprenticeship at Reliance Jio. Skilled in backend development with Python and Django, building REST APIs, and working with MySQL databases. Also experienced in frontend development using React.js, JavaScript, HTML, CSS, and Tailwind CSS. Contributed to production-ready applications and collaborated with teams to deliver maintainable solutions.

Technical Skills

Programming & Web: Python, HTML, CSS, JavaScript
Front-end: React.js, Tailwind CSS
Backend: Django, Django REST Framework (DRF), REST API Development
Database: MySQL
Version Control: Git, GitHub
Operating Systems: Linux
Cloud DevOps: Cloud Computing Fundamentals

Experience

Reliance Jio

July 2025 – Ongoing

Full Stack Developer (Apprenticeship / Backend-Focused)

- Built and maintained backend modules with Python, Django, DRF, and MySQL, ensuring reliable API integration and efficient data handling for production systems.
- Optimized an existing dashboard and developed a NOC dashboard for managers and HODs, enabling real-time data access without manual searching.
- Implemented front-end features using React.js, JavaScript, and Tailwind CSS to enhance usability and interface efficiency.
- Collaborated with cross-functional teams to deliver production-ready applications, improving operational workflows and system performance.
- Utilized Git and GitHub for version control, including pull requests, code reviews, and collaborative development.

BitMap Technologies

Oct 2023 – Mar 2024

Python Developer Intern

- Developed and maintained backend modules using Python and Django, implementing CRUD operations and REST APIs to support internal business applications.
- Managed and optimized MySQL databases for efficient data storage, retrieval, and processing.
- Assisted in developing frontend components using HTML, CSS, and JavaScript to enhance user interfaces.
- Collaborated with team members using Git and GitHub, participating in code reviews, version control, and deployment workflows.

Projects

Personal Portfolio Website — React.js, Tailwind CSS

[Source Code](#)

- Built a responsive personal portfolio website to showcase skills, resume, and projects.
- Designed clean UI/UX layouts using React.js and Tailwind CSS for smooth user experience.
- Optimized website performance, ensuring fast loading and mobile-friendly design.
- Demonstrates frontend development skills and ability to structure reusable components.

Expense Tracker Web App — React.js, Django, DRF, MySQL, Tailwind CSS

[Source Code](#)

- Built a full-stack expense tracker to add, edit, and categorize personal expenses with real-time calculations.
- Implemented backend APIs with Django and DRF and connected them to a React.js frontend for a responsive user interface.
- Enabled features like expense filtering, category tracking, and total expense calculation.
- Managed data locally using MySQL; used Git for version control and development workflow.

Education

RMD Sinhgad School of Engineering, Pune, Maharashtra

2021 - 2024

B.Tech in Electronics and Telecommunication & Engineering

8.3/10 CGPA
